Adjustable Height office table

Healthy

Just stand to stay healthy!

Changing your posture can make you healthier.

Do you know the adverse effects of sedentariness?

- Office staffs' Long-term sedentariness may increase the Chance of death for 45%. (By CW Magazine)
- Sedentariness without movements may cause herniated intervertebral disc easily. (By Apple Daily newspaper)
- Why sitting is bad for you? (TED-Ed Murat Dalkilinc)
- Sitting for long time will lower the blood circulation speed and oxygen content of brain, this may let you have poor spirit. If changing standing postures timely, blood circulation may be more smoothly.
